- Download Files From Cloud Apps

CHALLENGES

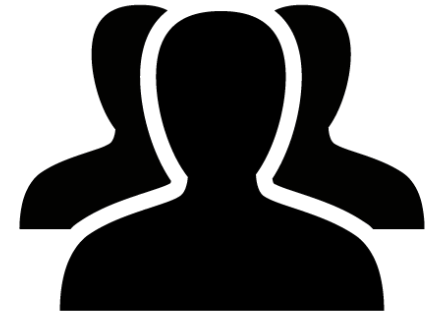

Where do threats come from?

Malicious Outsider

Trusted Insiders

Common Business Problems

Finding & securing
data everywhere

Simplifying regulatory
compliance

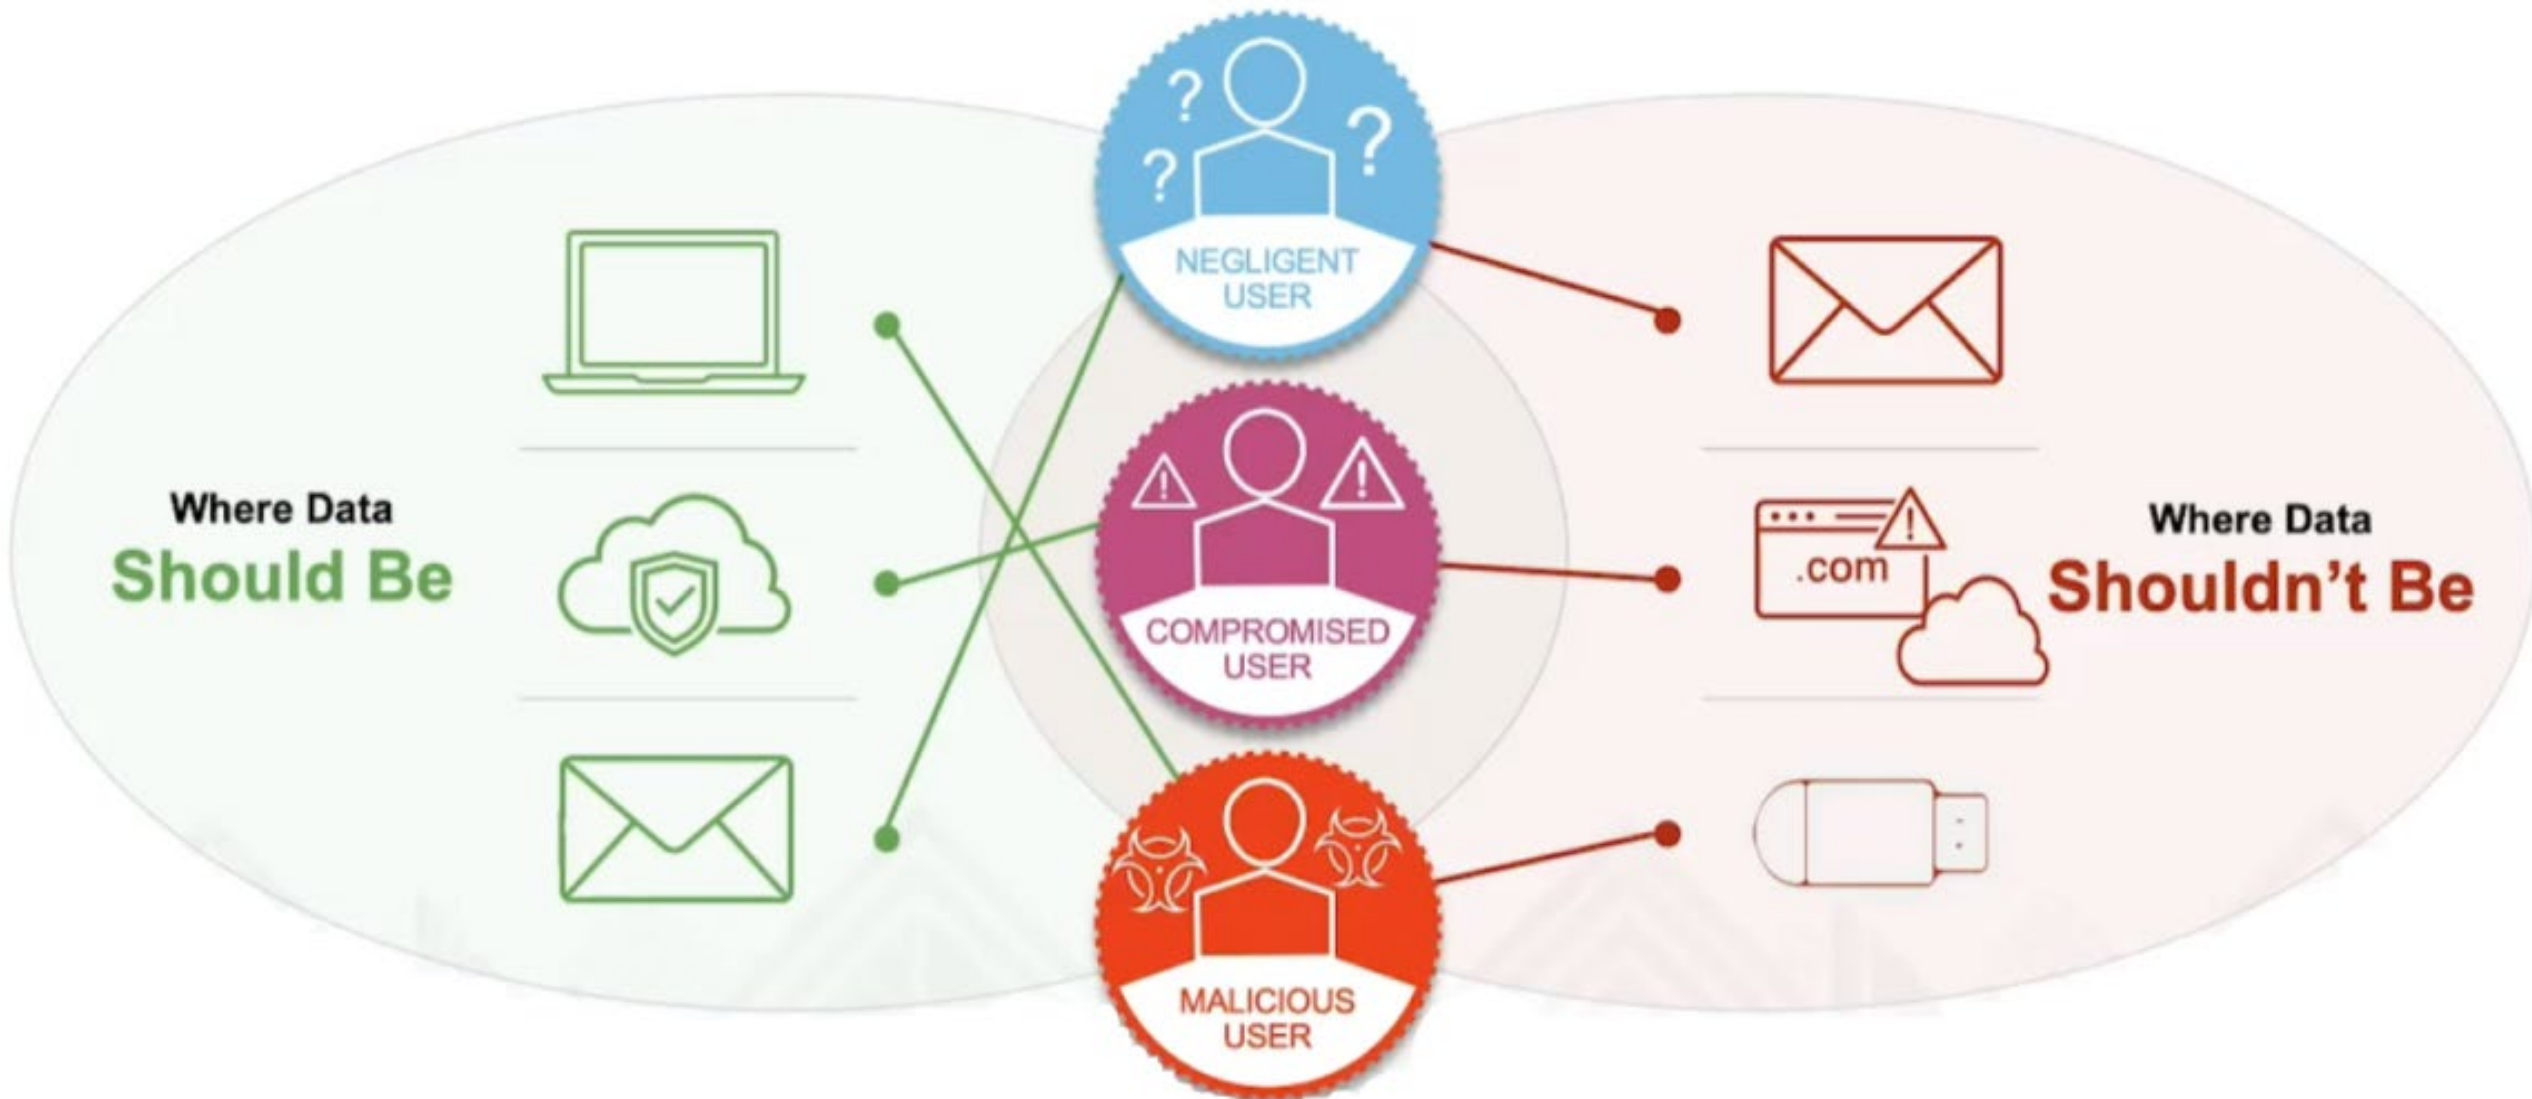

Protecting data based
on user risk

Moving business apps
into the cloud

Securing data on
remote endpoints

Risk Profiles and Getting Ahead of DLP

Where is my data?

Desktops,
Laptops,
Network
Shares,
Databases

Who is sending my data?

Trusted
Users,
Intruders,
Spyware,
Viruses

What data is sent?

PII
PHI
Source Code
Intellectual
Property

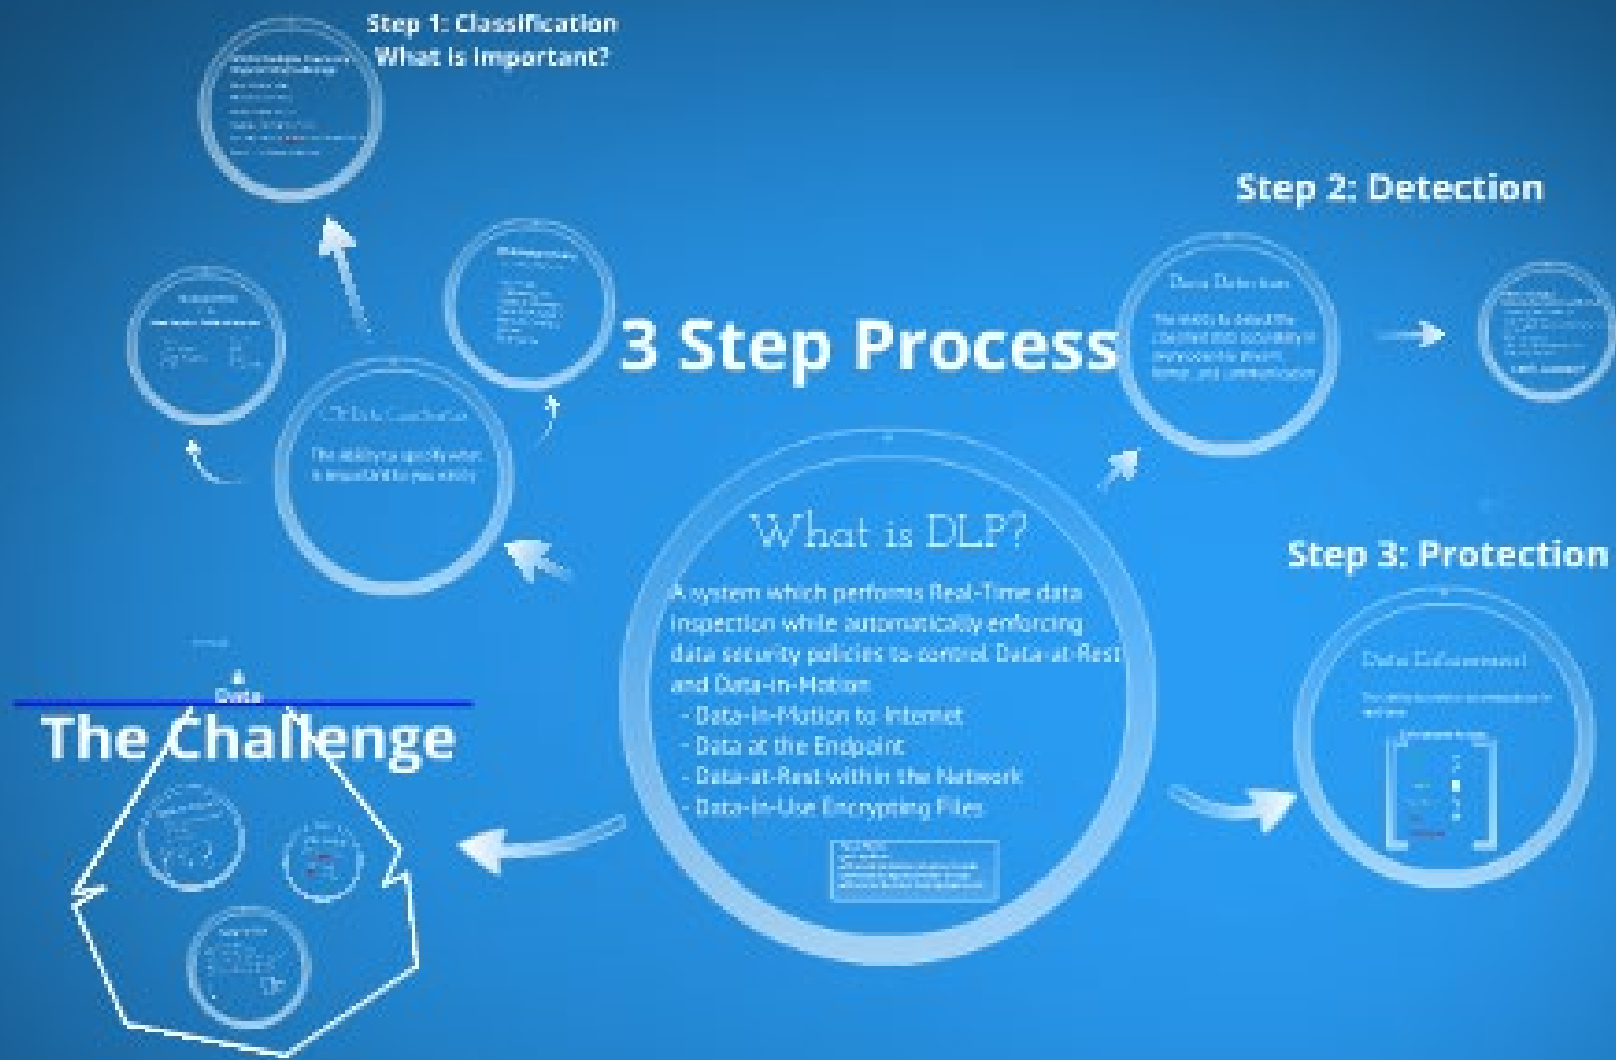

Who received my data?

IP Address
Email
Destination
Geographic
Location

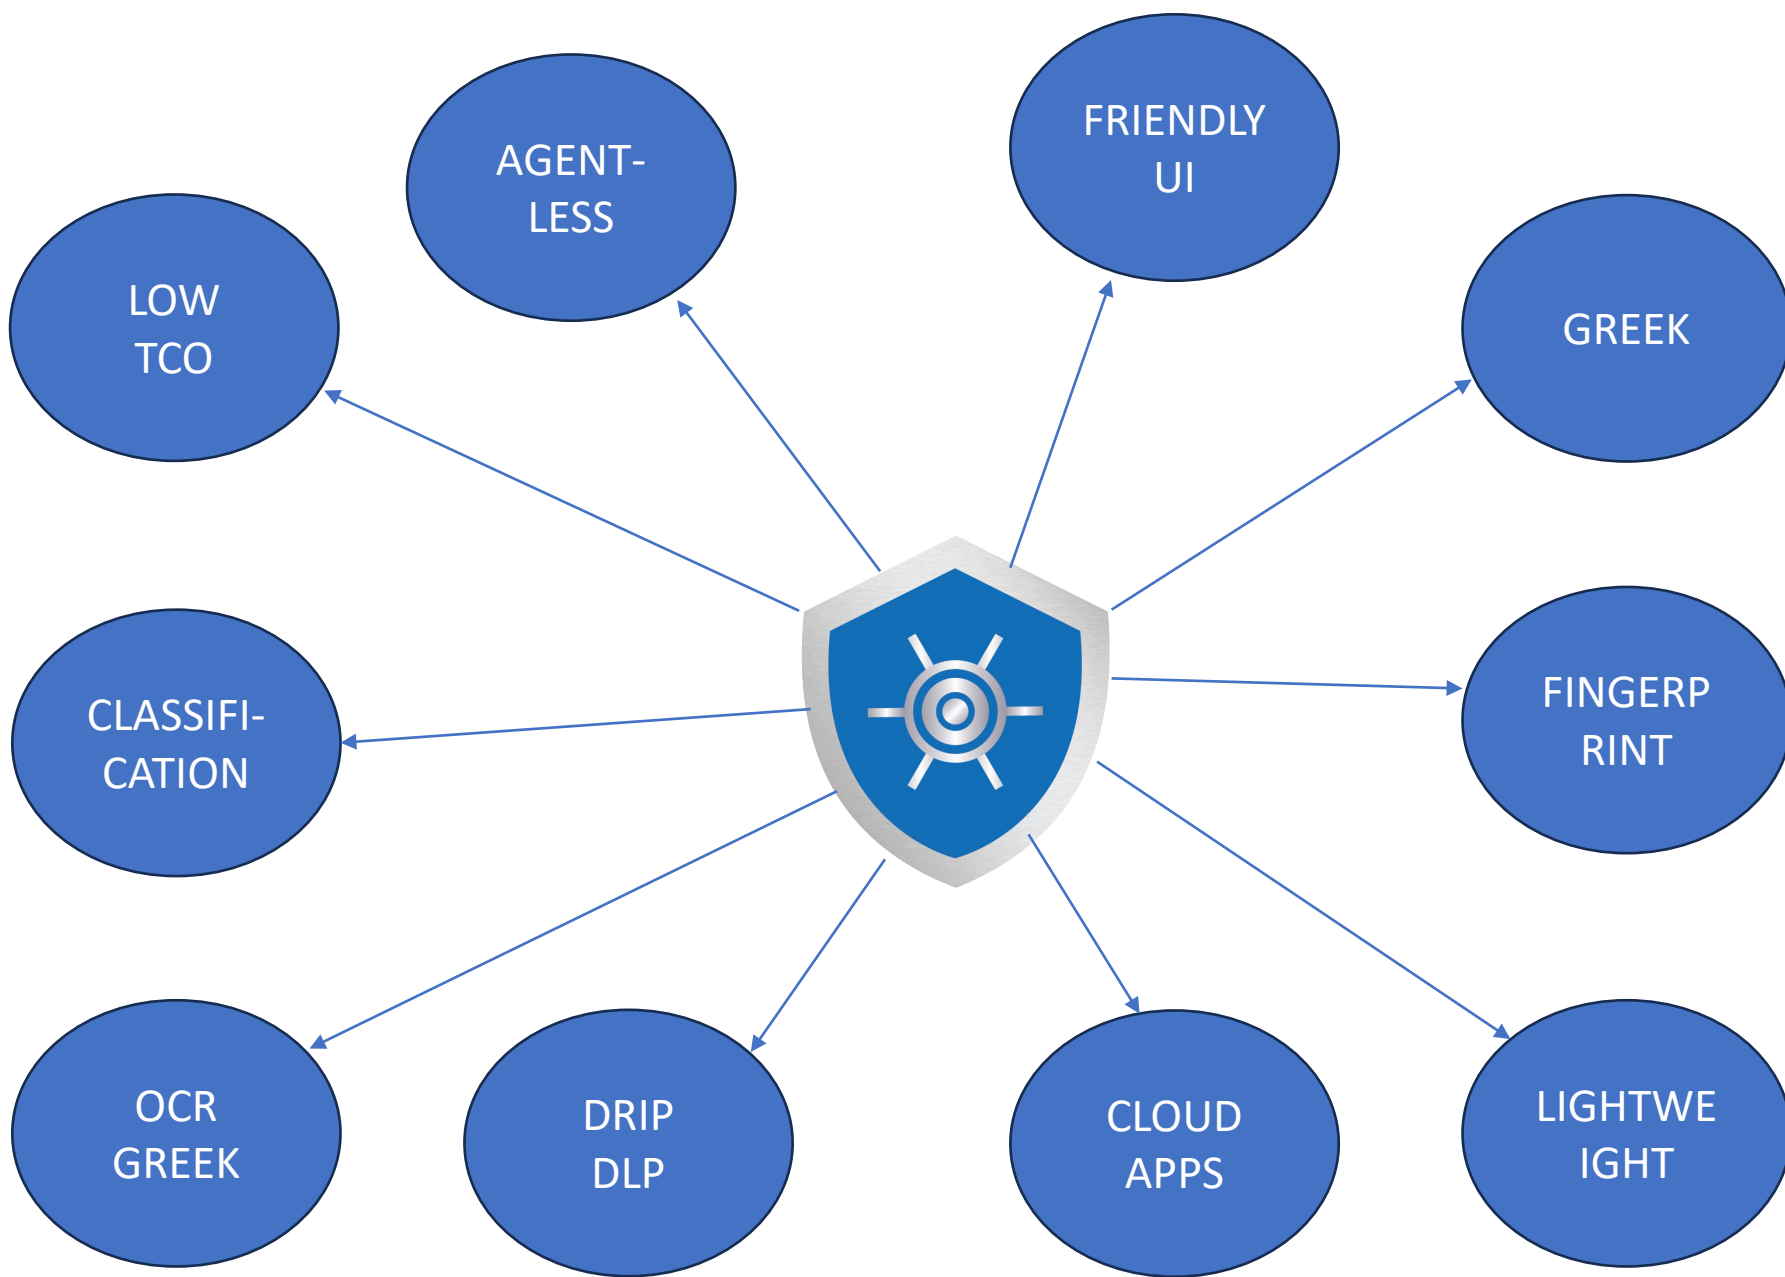

How do I protect my Data?

Cut/Copy
Paste
Print, Print
Screen
Access File
Removable

GTB Console can provide complete
visibility to DPO and IT.
