- SOC & Incident Response
- DLP-as-a-Service

## What drives **Data Loss Prevention**?

- ✓ Competition
- ✓ Cybercrime
- ✓ Compliance

**GOAL**

- ✓ Protect sensitive data

**Security Manager DLP**

# Why do many DLP projects **FAIL** miserably?

- It is a **HARD** project
- Over-ambitious goals
- Poor planning
- Poor data classification
- Multiple data owners - Delays
- Limited resources to maintain
- Limited resources to monitor

Security Manager DLP

# Why do you need a **Managed Service** for your Data Loss Prevention?

- Special consulting
- Save time and money
- Continuous development of the solution
- Adaptiveness to new conditions
- Continuous monitoring
- Automation of DLP processes
- Meet compliance goals

**Security Manager DLP**

## What will your **Managed Service** do for You?

Security Manager DLP

- ✓ Mitigate Data leakage risks (insiders, hackers, malware)
- ✓ Detect and classify data
- ✓ Provide access control and visibility even outside your network
- ✓ Automate digital governance
- ✓ Provide ease and flexibility

# What is Security Manager DLP

continuous  
development

maintenance

support

alerting

case  
management

24 hour  
response

 Alphabit

**RESILIENCE**

## Other benefits

Enhance **Security Posture**
